Subject: Microsoft Settlement

I would like to state that I am opposed to the proposed settlement of the Microsoft anti-trust case. I believe that the proposed settlement does not adequately ensure that Microsoft's anti-competitive behavior will be curtailed, let alone eliminated. By failing to restrain Microsoft's repressive actions, emerging technologies which promise to promote technological progress and foster consumer choice are still prey to Microsoft's systematic and illegal elimination of threats - whether real or merely perceived - to its monopoly in PC operating systems and applications.

Thank you for the opportunity to express my concerns.
